Advay Sharma 60009220147
Ronil Shah 60009210082
Ankush Pandey 60009230211

A.Y. 2023 – 2024

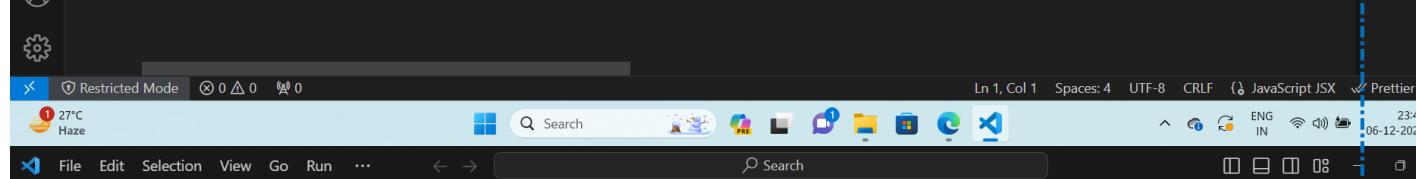

CODES:

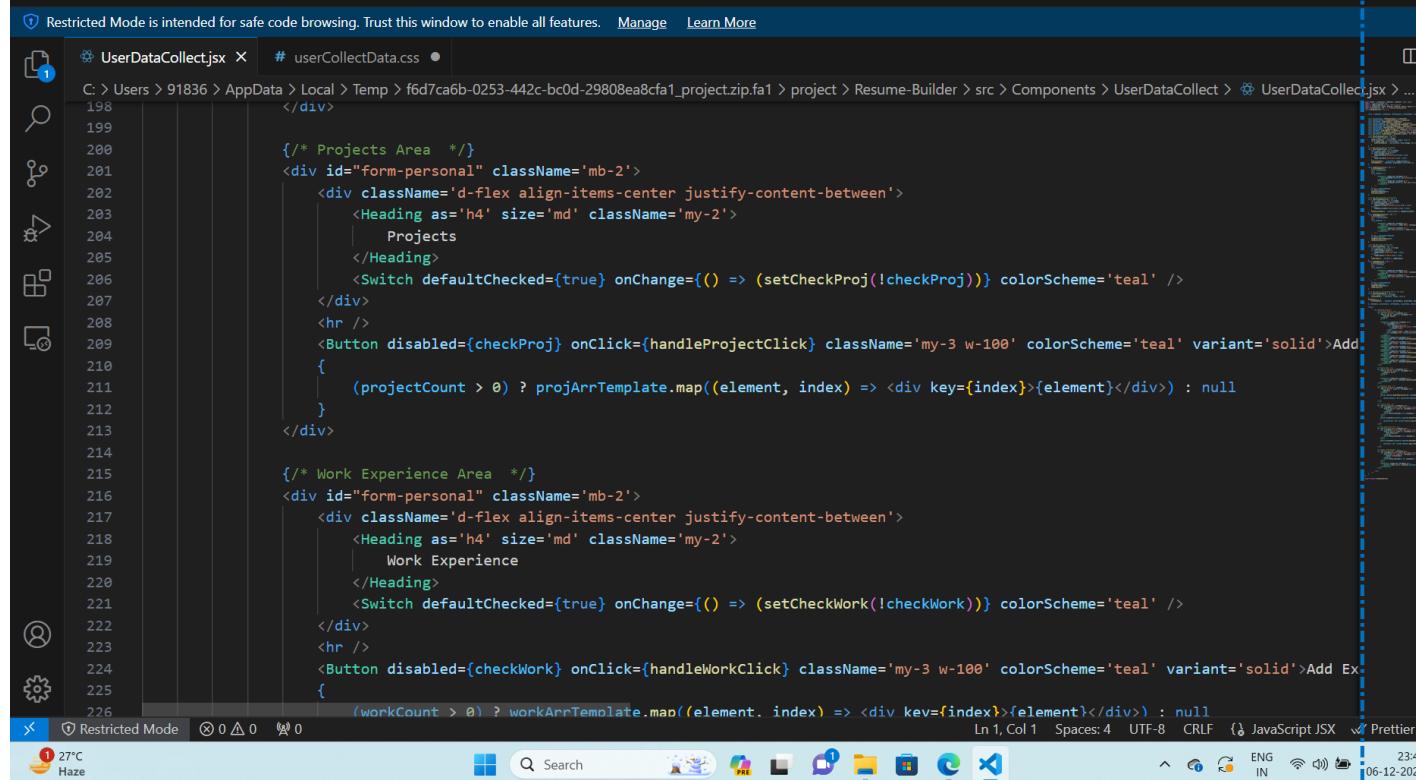

The screenshot shows a code editor window with the file `UserDataCollect.jsx` open. The code is a React component for collecting user data, specifically focusing on awards and achievement. It includes imports for `Heading`, `Switch`, and `FormControl` from the `Components` folder. The component structure involves nested `div` elements and conditional rendering based on state variables like `checkAward`.

```
227     }
228     </div>
229
230     /* Awards & Achievement */
231     <div id="form-personal" className='mb-2'>
232         <div className='d-flex align-items-center justify-content-between'>
233             <Heading as='h4' size='md' className='my-2'>
234                 Awards & Achievement
235             </Heading>
236             <Switch defaultChecked={true} onChange={() => (setCheckAward(!checkAward))} colorScheme='teal' />
237         </div>
238         <hr />
239         <FormControl isRequired className='my-2'>
240             <Textarea name='awards' disabled={checkAward} onChange={handleChangeAwards} placeholder='Use comma to separate Achi...
241         </FormControl>
242     </div>
243
244     </div>
245     </div>
246   )
247 }
248
249 export default UserDataCollect
250
```

This screenshot shows the same `UserDataCollect.jsx` file, but with a different section of the code visible. It continues from the previous screenshot, showing the implementation of the "Projects Area". The component uses a `Button` component with a `disabled` prop set to `checkProj` and an `onClick` handler for adding projects. The code also includes logic to map project templates to a list of divs.

The screenshot shows the final part of the `UserDataCollect.jsx` component. It adds the "Work Experience Area" with a similar structure to the "Projects Area". It includes a `Button` for adding work experience and logic for mapping work experience arrays to a list of divs. The code is annotated with comments for clarity.

```
198     </div>
199
200     /* Projects Area */
201     <div id="form-personal" className='mb-2'>
202         <div className='d-flex align-items-center justify-content-between'>
203             <Heading as='h4' size='md' className='my-2'>
204                 Projects
205             </Heading>
206             <Switch defaultChecked={true} onChange={() => (setCheckProj(!checkProj))} colorScheme='teal' />
207         </div>
208         <hr />
209         <Button disabled={checkProj} onClick={handleProjectClick} className='my-3 w-100' colorScheme='teal' variant='solid'>Add Proj...

Restricted Mode is intended for safe code browsing. Trust this window to enable all features. Manage Learn More

The screenshot shows a code editor interface with the following details:

- File Menu:** File, Edit, Selection, View, Go, Run, ...
- Search Bar:** Search
- Mode Indicator:** Restricted Mode is intended for safe code browsing. Trust this window to enable all features. Manage Learn More
- File Path:** C: > Users > 91836 > AppData > Local > Temp > 0b1226c7-d5c0-4c6e-b936-193e87892c37_project.zip.c37 > project > Resume-Builder > src > Pages > BuilderArea.jsx > default
- Code Content:**

```
29 }
30 export default BuilderArea;
```
- Sidebar Icons:** A vertical sidebar on the left contains icons for file operations (New, Open, Save, Find, Replace, Copy, Paste, Delete, Undo, Redo), a search icon, a refresh icon, a gear icon, and a help icon.
- Status Bar:** Ln 30, Col 27, Spaces: 4, UTF-8, CRLF, JavaScript JSX, Prettier, 23:32, 06-12-2023
- Bottom Icons:** A row of small icons representing various tools and services.
- System Icons:** On the far right, there are system status icons for battery, signal, network, and volume.

The screenshot shows a code editor interface with a dark theme. The top bar includes a file menu (File, Edit, Selection, View, Go, Run, ...), a search bar, and window control buttons. A status bar at the bottom displays 'Restricted Mode', file statistics (Ln 30, Col 27, Spaces: 4, UTF-8, CRLF), language (JavaScript JSX), and toolbars (Prettier, ESLint, etc.). The left sidebar contains icons for file operations like Open, Save, Find, and Settings. The main editor area shows the following code:

```
C:\> Users > 91836 > AppData > Local > Temp > 0b1226c7-d5c0-4c6e-b936-193e87892c37_project.zip.c37 > project > Resume-Builder > src > Pages > BuilderArea.jsx [default]
  1  import React, { useContext } from 'react'
  2  import { Button } from '@chakra-ui/react';
  3  import UserDataCollect from '../Components/UserDataCollect/UserDataCollect';
  4  import './BuilderArea.css'
  5  import Footer from '../Components/Footer/Footer';
  6  import ResumeContext from '../Context/ResumeContext';
  7  import PropagateLoader from "react-spinners/PropagateLoader";
  8  const BuilderArea = (props) => {
  9    const { showComponent, setShowComponent, loading, handlePrint } = useContext(ResumeContext)
 10   const handleSelectNewTemplate = () => {
 11     setShowComponent(!showComponent)
 12   }
 13   return (
 14     <>
 15       {loading && <PropagateLoader id='spinner' color="#319795" size={30} />}
 16       <div id='main-box' className="d-flex justify-content-between flex-wrap mt-4 mx-2">
 17         <UserDataCollect />
 18         <div id='theme-box-border'>
 19           {props.theme}
 20         </div>
 21       </div>
 22       <div className="d-flex flex-wrap justify-content-center">
 23         <Button className='mx-2 my-5' colorScheme='teal' variant='outline' onClick={handlePrint}>Print</Button>
 24         <Button className='mx-2 my-5' colorScheme='teal' variant='outline' onClick={handleSelectNewTemplate}>Select Another Tem
 25       </div>
 26       <Footer />
 27     </>
 28   )
}
```

The code is a React component named 'BuilderArea.jsx' that handles state via the 'ResumeContext'. It includes imports for React, Chakra UI, and a custom 'UserDataCollect' component. The component itself uses PropagateLoader for loading, and includes a 'main-box' container with two children: 'UserDataCollect' and a 'theme-box-border' div containing the current theme. It also features a 'Print' button and a 'Select Another Tem' button. The footer is represented by a simple '<Footer />' placeholder.

The screenshot shows a code editor interface with a dark theme. The top bar includes standard file operations like File, Edit, Selection, View, Go, Run, and a search bar. On the left, there's a vertical toolbar with various icons: a file icon (with a '1' count), a magnifying glass, a gear, and a refresh symbol. The main area displays an `About.js` file. The code uses Chakra UI components like `Avatar`, `Box`, `chakra`, `Flex`, `Icon`, `SimpleGrid`, and `useColorModeValue`. It defines a `testimonials` array containing two objects, each with `name`, `role`, `content`, and `avatar` properties. The `content` property for the second testimonial contains a long string of placeholder text. The `TestimonialCard` function takes `props` and returns a `Flex` component with specific styling.

30       rounded={'xl'}
31     >
```

The screenshot shows a browser window with a dark theme. At the top, there's a blue header bar with the Microsoft Edge logo, the word "Haze", and a "Restricted Mode" warning message: "Restricted Mode is intended for safe code browsing. Trust this window to enable all features." Below this are standard browser controls: back, forward, search, and a refresh button.

The main content area is a code editor. The title bar says "# main.50cf7a0.css" and "Untitled-1.html". The file path is listed as "C: > Users > 91836 > OneDrive > Documents > Advay > HTML > Untitled-1.html > ...".

The code in the editor is:

```
29 |     crossorigin="anonymous"></script>
30 |     <!-- 100% privacy-first analytics -->
31 |     <script async defer src="https://scripts.simpleanalyticscdn.com/latest.js"></script>
32 |     <noscript></noscript>
34 |   </body>
35 | </html>
```

On the left side of the code editor, there's a vertical toolbar with various icons: a folder with a 1, magnifying glass, a gear, a person, a square with a circle, a square with a dot, and a square with a question mark.

At the bottom, there's a status bar with "Ln 1, Col 1", "Spaces: 4", "UTF-8", "CRLF", and "HTML" buttons. The bottom right corner shows system status icons for battery, signal, and date/time.

The screenshot shows a code editor interface with the following details:

- File Menu:** File, Edit, Selection, View, Go, Run, ...
- Search Bar:** Search
- Mode Indicator:** Restricted Mode is intended for safe code browsing. Trust this window to enable all features.
- Toolbar:** Includes icons for file operations like Open, Save, Find, and Refresh, as well as a gear icon for settings.
- Code Area:** The file 'Theme3.jsx' is open, showing code related to 'projectTitles' and 'projectDesc'. The code uses JSX syntax with 'Box' and 'Text' components, and includes logic for mapping arrays and handling undefined values.

```
141     <Box marginLeft={25} width="100%">
142         <Text fontSize="sm">
143             {Object.entries(projectTitles).map((element, index) => {
144                 return (
145                     <Box key={index} className="mt-1">
146                         <Heading fontSize="md" fontFamily='serif' className="my-2">
147                             {element[1]}
148                         </Heading>
149                         <Box className="sub-details">
150                             {Object.entries(projectDesc)[index] === undefined
151                             ? null
152                             : Object.entries(projectDesc)
153                                 [index][1].split(",")
154                                 .map((element, index) => {
155                                     return <li key={index}>{element}</li>;
156                                 })}
157                         </Box>
158                     </Box>
159                 );
160             )}
161         </Text>
162     </Box>
163     </Box>
164     </>
165   }
166
167   <div className="w-100 border m-auto"></div>
168
```

- Status Bar:** Shows the current line (Ln 28), column (Col 84), and other file statistics like Spaces: 2, UTF-8, CRLF, and the language (JavaScript JSX).

```
113     {Object.entries(educationTitles).map((element, index) => {
114       return (

OUTPUT:

The screenshot shows a web browser window with the URL localhost:3000. The page features a large, bold title "RESUME IN THREE EASY STEPS" in purple. Below the title is a subtitle: "Crafting Careers, building Resumes : Your Path to Professional Excellence Starts Here!". To the right of the text is a colorful illustration depicting various professionals at work: a man in a suit using a laptop, a woman working on a computer, a person climbing a ladder, and another person standing on a gear. The overall theme is professional development and technology.
